Calculate the attention of subjects

Here we calculate the attention of subjects

logo

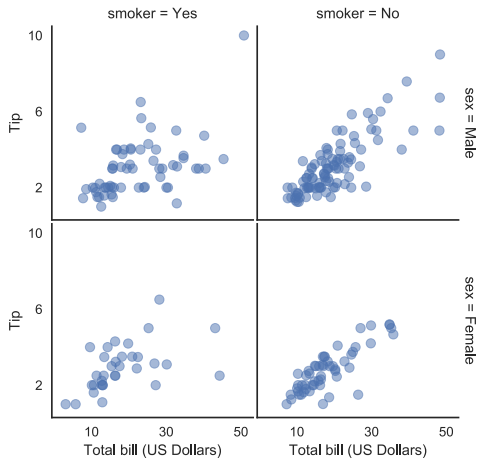

A slide with just text

- ▶ First point
 - ▶ First subpoint
 - ▶ Second subpoint
- ▶ Second point
- ▶ Third point

logo

A look at the tips dataset

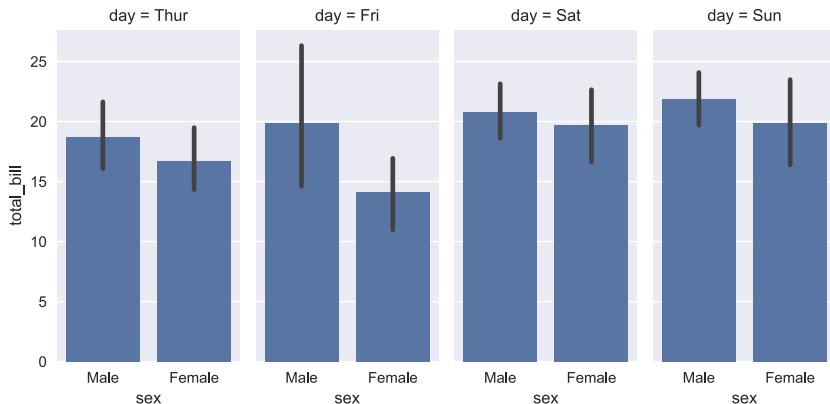

This is a formula $x = \frac{1}{2} \cos(y)$

logo

Here we show some code

```
g = sns.FacetGrid(tips, col="day", size=4, aspect=.5)  
g.map(sns.barplot, "sex", "total_bill");
```
